

KAT'S HEATERS

MANUFACTURERS OF QUALITY
ENGINE HEATERS SINCE 1947

TERMS OF LIMITED WARRANTY

WARRANTY: Products manufactured by Five Star Manufacturing Company are warranted for one year from date of sale to the original consumer against defects in workmanship and materials providing the installation and use of these products are in accordance with the manufacturer's instructions and applications. The manufacturer's only obligation shall be to repair or replace at the manufacturer's option the product provided it is returned transportation prepaid to the factory within one year from date of sale to original consumer.

Defects or failures due to incorrect installation, improper voltage, improper usage, improper alterations, or handling, or by any other conditions beyond our control, as to any and all of which the manufacturer will be the sole judge, are specifically excluded from this warranty. This may also have implied warranty rights which vary from state to state. No other liability of any kind, arising from the use of the product, whether defective or not, is assumed.

REPLACEMENT AND REPAIR POLICY

- I. In returning a heater for replacement or repair, include all the information possible as to what may have caused the trouble. Check the extension cord. In some cases it has been faulty. All returned heaters must be labeled and identified with warranty tags.
- II. Service charges will be made on units which:
 - (1) Were burned in air (operated without the heating element being immersed in water or antifreeze).
 - (2) Failed due to restricted circulation, improper installation, air pockets in hose lines, or a dirty cooling system.
 - (3) Are damaged through no fault of manufacturer.
 - (4) Failed due to installation on other than recommended vehicles.
 - (5) Are not defective.
- III. Five Star Manufacturing Company cannot and does not refund labor.

IMPORTANT...CAUTION

To obtain satisfactory results from your external type engine heater, please read the following information carefully.

DO NOT USE A KAT'S ENGINE HEATER WHEN USING A 100% SOLUTION OF ANTI-FREEZE.

After the heater has been installed according to instructions, have your service station or garage check your antifreeze solution. On permanent type antifreeze, a solution too strong as well as too weak will freeze. If your coolant freezes or congeals, it will stop the flow of liquid through the heater housing and hoses and cause the heater to burn out. Our heater guarantee is void when this happens or when there is evidence of inadequate coolant.

To obtain the maximum protection from freezing, consult your antifreeze manufacturer's recommendations.

Five Star Manufacturing reserves the right to make any changes to the design or appearance it deems necessary to any of its products at anytime without notification, and these changes will not obligate Five Star to replace or change any previously manufactured products.
